Professional Summary

A passionate B.Tech Computer Science student with a strong foundation in Data Structures and Algorithms (DSA) and a diverse skill set in C++, Python, and Java. Proven ability to develop and deploy projects, from full-stack web applications to AI/ML solutions using Python and NLP. Solved 200+ coding problems on LeetCode, Neocolab, and CodeHelp. Eager to contribute to a dynamic tech team and solve real-world problems.

Education

Vellore Institute of Technology (VIT)
B.Tech in Computer Science and Engineering
Intermediate – U.P. Board
High School – U.P. Board

Expected 2027
CGPA: 8.21
Scored: 81.06%
Scored: 87%

Technical Skills

Languages: C++, Python, Java, C, JavaScript
Web: HTML, CSS, React.js
Databases & Cloud: SQL, AWS DynamoDB
AI/ML: scikit-learn, TensorFlow, PyTorch, HuggingFace
Tools: Git, GitHub, VS Code, Flask, Streamlit, MS Excel

Projects

- **Emotional Maturity Detector (ML + NLP)** Built an end-to-end ML pipeline using Python and NLP techniques (NLTK, spaCy, TextBlob, VADER). Integrated Transformer models (BERT, RoBERTa) for improved prediction accuracy and deployed real-time inference using Streamlit/Flask.
- **Cloud-Based Quiz Application** Developed a scalable MCQ platform with automated evaluation. Used AWS DynamoDB for low-latency data storage and designed backend logic to handle concurrent user sessions.
- **E-Commerce Website (Frontend)** Created a responsive product catalog using HTML, CSS, and JavaScript with shopping cart functionality and dynamic UI navigation.
- **Management Systems (C++ & SQL)** Implemented Library and Hotel Management Systems using OOP principles for record management, billing, and transaction handling.
- **Productivity & Utility Apps** Built Weather App (API-based), Student Progress Analyzer (C++), and To-Do List, Stopwatch, Calculator apps using React.js for productivity enhancement.

Experience & Leadership

Software Development Internship (Participant) – Unstop Tech Fair 2025

- Participated in a structured software development internship program.
- Gained exposure to real-world development workflows and problem-solving.

Senior Core Member – Geo Spatial Club

- Organized technical workshops and mentored junior members.
- Coordinated inter-team activities for tech events.

Certifications

- **OCI Generative AI** – Oracle
- **OCI Data Science** – Oracle
- **Java with DSA** – PhysicsWallah
- **Crash Course on Python** – Coursera
- **Introduction to Statistics** – Coursera
- **AWS S3 Basics** – Coursera
- **Introduction to Data Analysis using Microsoft Excel** – Coursera
- **Using Basic Formulas and Functions in Microsoft Excel** – Coursera
- **Finding, Sorting, & Filtering Data in Microsoft Excel** – Coursera
