Professional Summary

B.Tech Computer Science student with strong problem-solving skills in Data Structures and Algorithms and hands-on experience in C++, Java, and Python. Experienced in building scalable full-stack and AI-driven applications using modern frameworks and cloud services. Seeking SDE roles to develop reliable, high-performance software systems.

Education

Vellore Institute of Technology (VIT)
B.Tech in Computer Science and Engineering

Expected 2027
CGPA: 8.21

Technical Skills

Languages: C++, Java, Python, JavaScript, C
Core CS: Data Structures and Algorithms, OOP, System Design
Web/Backend: HTML, CSS, React.js, Flask
Databases/Cloud: SQL, AWS DynamoDB, S3, AWS KMS
AI/ML: TensorFlow, PyTorch, Scikit-learn, NLP, Hugging Face
Tools: Git, GitHub, VS Code, Streamlit

Projects

- **Phishing and Fraud Detection System**
 - Developed an NLP-based security system to detect phishing across emails, SMS, URLs, and QR codes.
 - Implemented transformer-based text classification with an end-to-end pipeline for preprocessing and real-time prediction.
- **Resume Skill Analysis and Job Matching Platform**
 - Built a platform to extract candidate skills from resumes and match them with job descriptions using embeddings.
 - Applied semantic similarity techniques to generate automated job recommendations.
- **Interview Preparation and Evaluation Platform**
 - Designed a mock interview system that analyzes responses and generates performance feedback.
 - Utilized NLP models to evaluate answer quality, relevance, and communication effectiveness.
- **Floral E-Commerce Web Application**
 - Implemented a full-stack e-commerce platform with product catalog, shopping cart, and admin dashboard.
 - Built responsive frontend using React and integrated backend APIs with secure authentication.

Experience & Leadership

Software Development Intern — Unstop Tech Fair 2025

- Collaborated in a team environment to develop and debug software modules
- Improved code reliability through testing, validation, and peer code reviews

Senior Core Member — Geo Spatial Club

- Organized technical workshops and mentoring sessions for students
- Guided junior members in programming fundamentals and project development

Certifications

- AWS Security — Encryption Fundamentals (Coursera)
- OCI Generative AI — Oracle
- OCI Data Science — Oracle
- Java with Data Structures and Algorithms — PhysicsWallah
